

BELLA ACCESSORIES

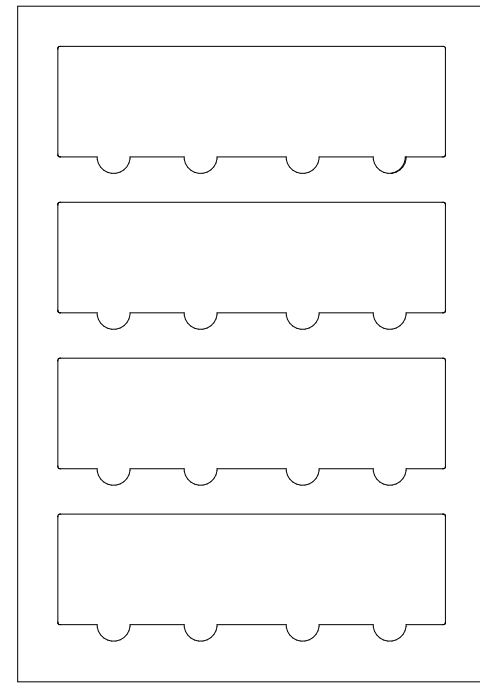

Wine Rack Frames

4 Bottle
(150)

8 Bottle
(300)

16 Bottle
(500)

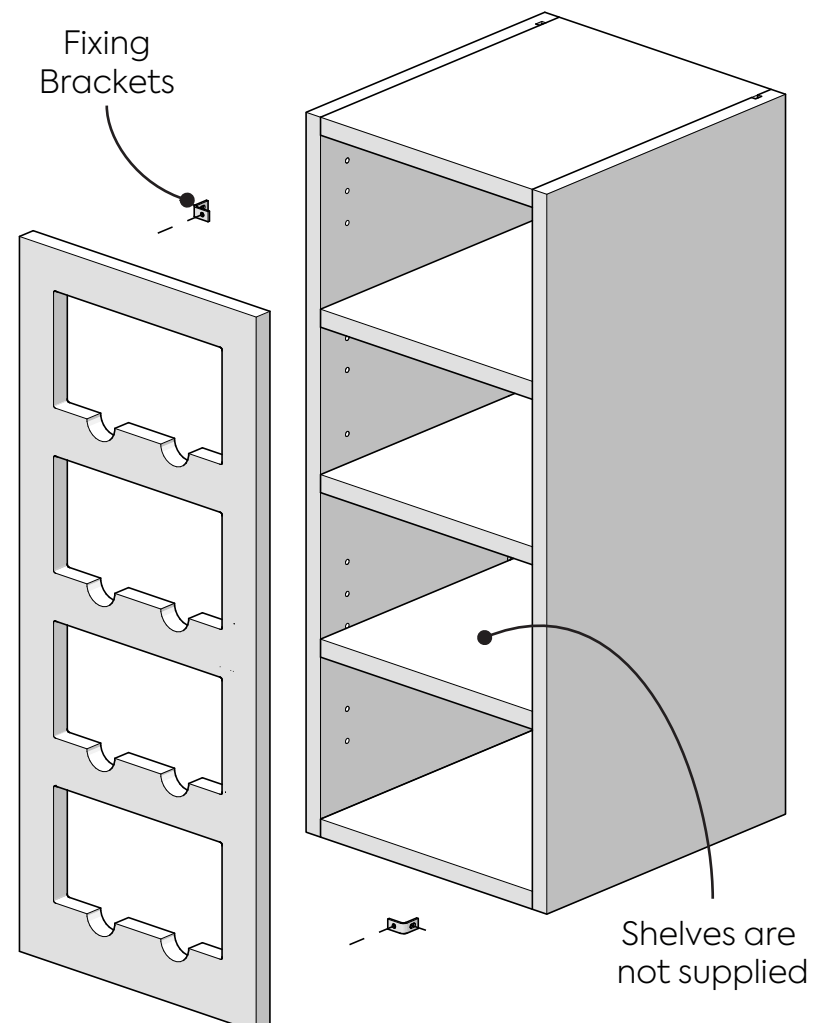

Wine rack frames are supplied in three sizes, to suit 150mm, 300mm, and 500mm standard cabinets, as shown above.

Note: Just the frames are supplied – if additional shelving material is required, this must be ordered separately (see below).

Please ensure that if the frames are used in a wall unit application (especially the 500mm) that sufficient fixing & support is made to both the wine rack unit itself, and also via adjacent cabinets, to ensure a fully loaded cabinet + wine bottles is stable and secure.

16 bottle Wine Rack Frame in a 500mm standard cabinets.

The frames can be fitted into place using a variety of methods – simple screws & brackets, biscuits, dowels, or pocket hole screws as required.

Note: Shelves are not supplied – these will need to be ordered separately in suitable 18mm material – we recommend that shelves are fitted flush to the front of the cabinet for a neat finish.
